INTEGRATED BACHELOR AND MASTER'S DEGREE CURRICULUM

EDUVISA Graduate School of Management, as an Ofqual and Uniquac accredited tertiary training institution, provides students with the opportunity to complete a **Bachelor in Business (BBA) Degree** or alternatively a combination of a Bachelor and an Integrated **Master's (iMBA) Degree** simultaneously.

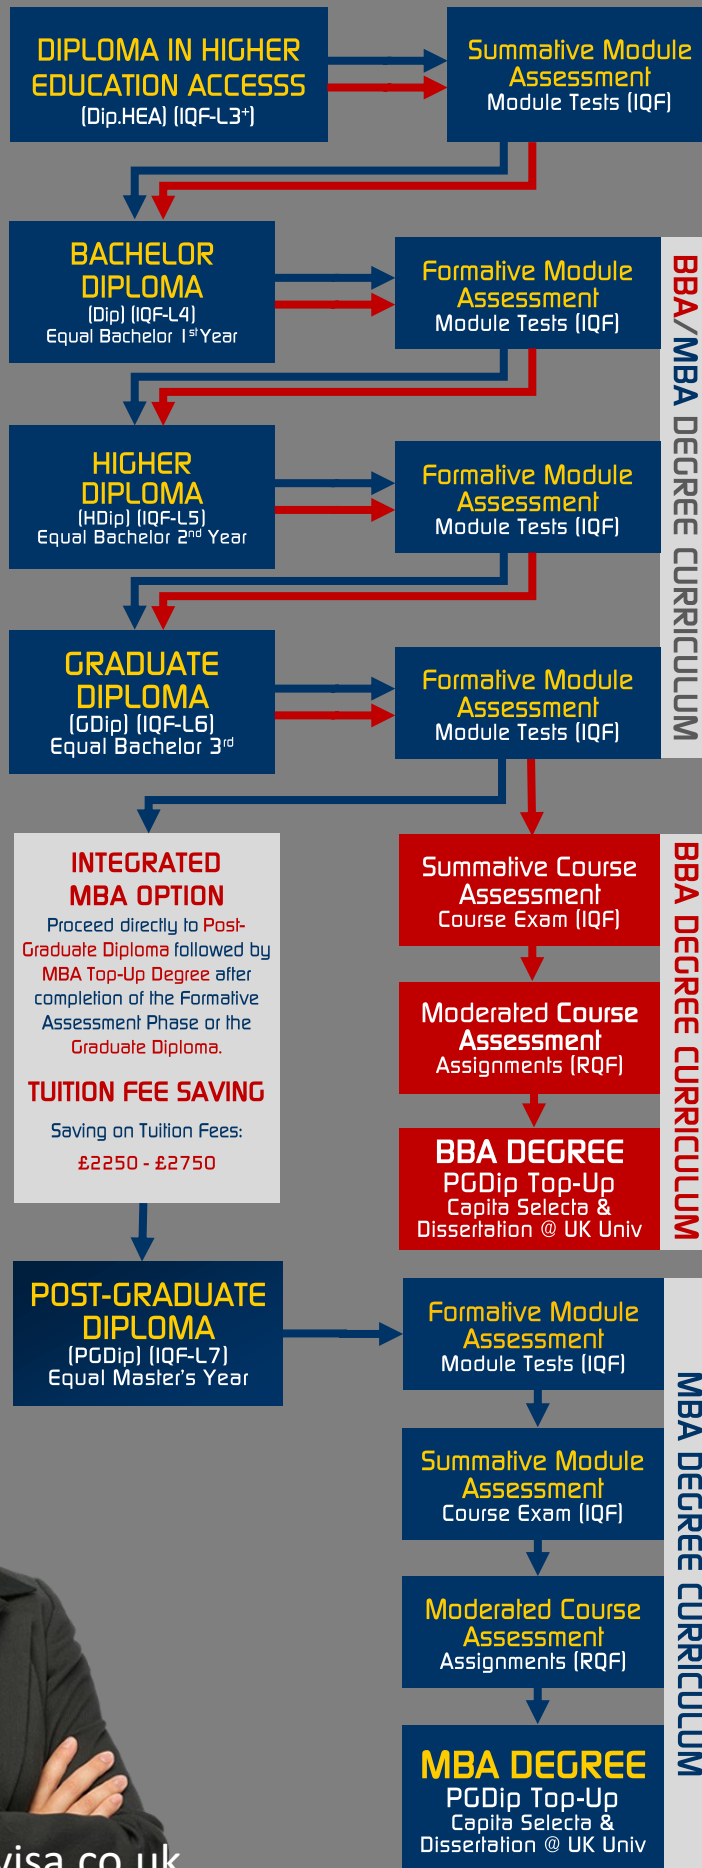

This enables the student to combine an undergraduate (Bachelor 1st, 2nd and 3rd Year) with a post-graduate (Master's Year) curriculum in a shortened period of time (24 to 30 months depending on the commitment of the learner/student).

At the end of his/her studies the student receives a MBA-Degree from a UK-University of choice at a greatly reduced study fee in comparison with campus-based BBA/MBA Programmes.

Students are able to complete an academic year in their own time frame and to proceed to the next academic phase as soon as the previous academic year has been completed. Students are not effected by extended holidays, social unrest or other events and determine their own academic progress.
